Topic

AIR CANNON

Basic:

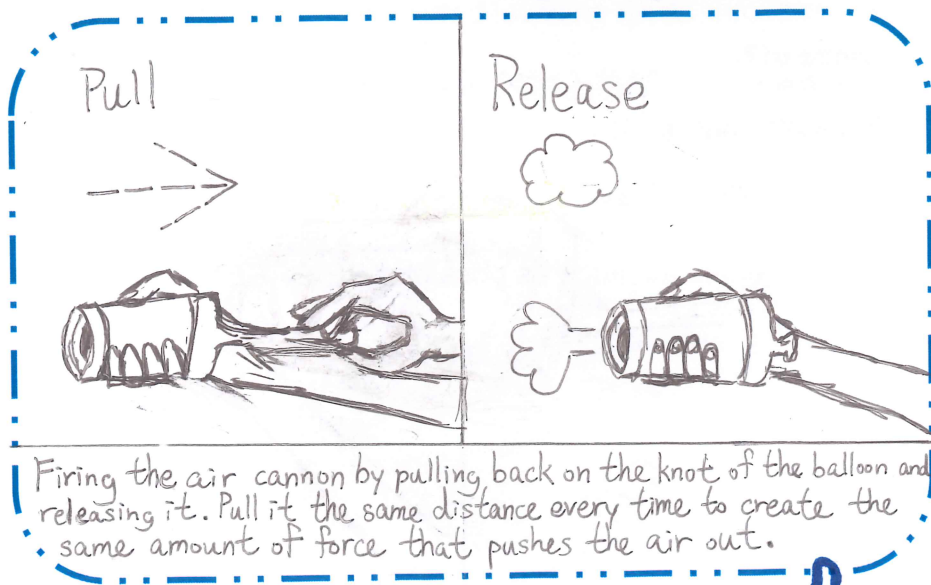

<https://www.youtube.com/watch?v=jK5vHHHcHNI>

Advanced:

<https://www.sciencebuddies.org/stem-activities/vortex-cannon>

How it works (you may use illustrations to explain):

Firing the air cannon by pulling back on the knot of the balloon and releasing it. Pull it the same distance every time to create the same amount of force that pushes the air out.
